

# PowerPool™

## SWIM. . . TRAIN. . . RELAX

Swimming has long been known as the ultimate zero-impact exercise and is widely **prescribed by physicians** to patients who want to get in shape or tone their body. PowerPool® employs two different water propulsion systems that work in concert with its open floor plan design. Choose a multi jet deep stream for exercise or the MAAX Force swim system for the ultimate endless current swimming experience. The observation seats and well marked swim lanes provide the **optimum swim training center** for your entire family.

A wide variety of aerobic exercises are possible in a PowerPool®. Aqua jogging is especially effective as the deep water neutralizes the effects of gravity while increasing resistance for an amazing low impact workout. **Fitness experts recommend** a warm water fitness regimen to maximize weight loss. Your PowerPool™ can also be equipped with the aquatic exercise equipment package that features modern resistance band technology. Attach the resistance bands to perform a **complete toning program**.

When you are finished working out, sit back and relax for a complete spa experience. Let the hydrotherapy jets massage those tight, sore muscles. A recent study shows a 10 minute massage improves muscle recovery after working out. Owning a swim spa allows you the convenience of enjoying it year round on your schedule. Invite your friends or that special someone over to enjoy the soothing waters with you.

# MAAX<sup>®</sup> FORCE

JET PROPULSION SWIM SYSTEM

The new MAAX<sup>®</sup> Force jet propulsion system uses proprietary 'Anti-Turbulence' technology to boost and smooth the swim stream for the ultimate swimming experience. **Anti-turbulence technology** creates a powerful, smooth, variable jet stream that is completely adjustable and designed to allow you to swim at your individual fitness level.

The MAAX Force Jet Propulsion Swim System has a 30 inch wide swim lane offering a superior swimming experience.

MAAX<sup>®</sup> Force Jet propulsion has **advantages over propellers or paddles** when creating a better swim stream. It is over 30" wide and easily produces a powerful swimming experience. You can also turn on the hydrotherapy mode to add air for a massage while you work out in the jet stream.

## Four Seasons Swimming

Enjoy the benefits of outdoor swimming all year long in a PowerPool® swim spa. In many places of the world the outdoor swimming season is short and heating a conventional in-ground pool is expensive and impractical. With your new PowerPool® you can swim and entertain guests any time of the year without the hassle and cost of a swimming pool. Never worry about winterizing your swimming pool again, PowerPool® swim spas are made with the same high efficiency Northern Exposure® insulation system as our hot tubs. Additionally the locking insulated cover means your PowerPool® is hot and ready to use any time of the year.

Swim, Train and Relax year round!

### Built to the MAAX

The PowerPool® is built to the same quality standards as our appliance grade hot tubs. Every model features our steel frame, Northern Exposure® insulation and ABS bottom pan.
